3-5 Documentation of Services

Employees are required to maintain proper record- keeping and documentation of all services to clientele. Counselors are responsible for maintaining up-to-date progress notes and other information in their client files in a manner which meets standards for billing purposes and for proper accountability to funding sources, while protecting the client's confidentiality.

3-6 Contract Obligations

As part of a treatment team, employees are required to assist the Agency in meeting its contract objectives so that the program can secure enough income to cover operating expenses each year.

3-7 Cost Consciousness

Employees should at all times be concerned about the proper use of materials, equipment and facilities. It is therefore the responsibility of all employees to perform their prescribed duties in the most economical manner possible such as turning off lights, electrical motors, heaters, office machines, etc., when not in use.

Employees are encouraged to submit suggestions to their supervisor or the Program Director which may help reduce costs and improve services. A response shall be made to all written suggestions pertaining to cost reduction and improvement of services.

No employee is permitted to make a purchase on behalf of the Pike County Recovery Council, Inc. without valid approval from the Fiscal Director being obtained, unless otherwise authorized by the Program Director.

SECTION 4 WORK SCHEDULE

4-1 Accountability. The Agency holds all employees accountable for time for which they are compensated. All consultants and contractual employees are accountable for contracted hours. Employees will be paid for all hours the Agency requires them to perform work. Falsification of records, time sheets, submissions to obtain payment for services not performed will be cause for immediate termination.

4-2 Hours of Service. The workweek for staff members is to consist of forty (40) hours in a work week which is defined as Monday through Sunday. Normal work hours will be from 8:30 A.M. to 4:30 P.M., with a thirty (30) minute paid break for lunch, a fifteen minute (15) paid break in the morning and a fifteen (15) minute paid break in the afternoon. There may be some exceptions to the established wok schedule.

Full-time employees shall take the thirty (30) minute lunch break are between the hours of 11:30 a.m. and 1:00 p.m. or as approved by the staff member's supervisor. Staff members are expected to return from lunch promptly. Abuse of the lunch period (i.e., eating lunch after the designated one-half (½) hour lunch period, taking more than ½ hour for lunch) will be grounds for disciplinary action (See Section 10). A part-time staff member who works a full day (8 hours or more) will receive a one-half (½) hour lunch for that day.

4-3 Overtime and Flex-Time Provisions for Exempt Employees. Exempt employees are those employees who hold positions that are administrative, professional or executive and meeting the other applicable specifications as defined by the Fair Labor Standards Act. Exempted employees are not eligible for overtime for hours worked in excess of 40 hours in a week.

Managers and supervisors who supervise two (2) or more staff members and professional employees are exempt from overtime compensation other than in the form of flextime. Administrative employees are those whose primary job duties include the exercise of discretion and independent judgment with respect to matters of significance. Executive employees regularly supervise two or more full-time employees and have authority with regard to hiring and firing other employee, or the ability to effectively recommend discipline, promotions, approved leaves, and hours of work. Flextime will be compensated on an hour for hour basis and will be granted at the discretion of the Program Director and approved by the supervisor. A list of overtime-exempt classifications will be maintained in the office of the Program Director.

Flexible scheduling must be approved by the immediate supervisor and/or the Program Director, with documentation regarding the additional hours worked. Failure to receive approval for flexible scheduling may result in disciplinary action (see Section 10). Flexible scheduling is not intended to provide employees with additional vacation and/or personal leave time. Please see Section 4-C which outlines the recording of time worked and Section 6 for an explanation of leave benefits, so that you understand clearly how these issues interact.

- 4-4 Overtime and Flex-Time Provisions for Non-Exempt Employees. Non-exempt employees are those employees who hold positions that are not administrative, professional or executive as defined by the Fair Labor Standards Act. In general employees will not work more than forty (40) hours in a single work week. Flexible scheduling will be used to cover services within regularly scheduled hours.

The Program Director or his designee shall oversee scheduling and the use of flex-time by Agency employees. All schedules are to be approved by the Program Director

When overtime work cannot be avoided, the employee will be paid overtime compensation based on the employee's regular rate of pay and in accordance with the Fair Labor Standards Act and the Ohio Revised Code. Overtime hours must be approved by the Program Director and Supervisor. The employee must complete a request for overtime form when requesting to work overtime hours prior to working the overtime hours. Failure to receive authorization for overtime may result in disciplinary action and non-payment of the time. In an emergency situation, if the Program Director or his designee cannot be reached for approval, overtime may be worked without prior authorization; however, the situation must be recognized by the supervisor as an emergency situation.

The work week is defined as a seven day period beginning on Monday and ending with Sunday. Hours worked between the regularly scheduled full-time hours and forty (40) hours in a work week will be compensated on an hour for hour basis. Time worked over forty (40) hours in a work week will be paid at one and one-half (1 ½) times the employee's regular rate of pay. Employees required to work on holidays shall receive their regular eight (8) hours pay and in addition a premium of one and one-half (1 ½) time their regular rate of pay for all hours they worked on a holiday. It is the responsibility of employees to have their supervisor/site manager/coordinator sign off the approval before turning in time cards, and/or service activity. Also, see Section 6-3 for Residential Holiday Leave/Pay.

For overtime calculation, the time in active status, when an employee is not actually working but receives pay (e.g. sick leave, vacation, and holidays) is not considered time worked. Scheduling overtime that is subsequently cancelled and not worked will not entitle the staff member to any overtime compensation. Only overtime actually worked is compensable.

When attendance at meetings, conference, and training sessions is required by the Agency, travel time and time actually spent in meeting sessions will be considered time worked for calculating overtime. Meal breaks will be counted as time worked only when meal is an integral part of a required meeting. Travel or meeting time is not considered time worked if attendance at the meeting or class is not required.

- 4-5 Tardiness and Attendance. Staff member attendance is a critical element in delivering services to individuals served by the Agency. Staff members are expected to arrive at work promptly and remain at work until the end of the day. When a staff member is unable to report to work, he/she must notify his/her immediate supervisor one (1) hour prior to the start of their work shift on the first day of absence and each day thereafter.

On the day the staff member returns to work after their absence, he/she must report to his/her supervisor and complete a leave request form.

Regular attendance is expected of all staff members. A pattern of absences or frequent absences will result in disciplinary action. A staff member who develops a pattern of absences, tardiness or leaving work early will have his/her absences reviewed for possible abuses of leave or the attendance policy.

It is the Agency's goal that employees work at least 95% of their scheduled work hours excluding vacation leave or Family Medical Leave.

Volunteer firefighters or emergency medical services providers will be permitted to be late for work or absent when involved with an emergency provided the following has occurred:

1. Provide their supervisor or the Program Director with a certificate showing their involved with either a volunteer fire department or emergency medical services provider. A copy should be placed in their personnel file.
 2. Provide their supervisor or the Program Director written notification from the Chief of the volunteer fire department or the emergency services medical director showing the employee status as a volunteer with their agency in compliance with ORC 4113.41.
 3. Employees may use vacation leave, or compensatory time for time missed due to an emergency. The employee who loses time may be required to provide a statement from the Fire Chief or Emergency Medical Director to the Program or supervisor stating the employee responded to an emergency.
 4. Employees will not be disciplined for missing work or arriving late under this section or ORC 4113.41.
 5. Employees are encouraged to notify the agency as quickly as possible so that arrangements can be made to reschedule the Agency's clients for future appointments and services.
- 4-6 Calamity Days. It is our goal to open each of our offices except in those cases when it is being recommended by law enforcement or other emergency services that we do not do so due to dangerous driving conditions.

However, the Agency recognizes that on certain days it may be difficult or impossible for a scheduled staff member to come into work, due to excessive snow, ice, or other inclement weather. The Agency encourages its employees to come into work on such occasion, only if in the staff member's judgment, they are able to do so in a safe manner.

The Program Director will determine appropriate actions pertaining to client services. This could involve canceling certain services requiring Agency transportation services, or canceling certain services due to the inability of staff members to reach their office. In these cases, the Agency is still considered open and any employee not in attendance for work or late for work will need to use leave for that absence. Employees are not permitted to use sick leave due to inclement weather.

If, in the opinion of the Program Director, such inclement weather conditions exist, the following specifies the guidelines for payment of wages on such days.

Scheduled full-time employees will not be required to use leave to cover absences during an Inclement Weather Day or Delay if specified by the Program Director. Part-time employees will only be paid for actual time worked.

Rebuttable presumption means that an employee may dispute or prove untrue the presumption or belief that alcohol or a controlled substance not prescribed by the employee's physician is the proximate cause of the work-related

injury. The burden of proof is on the employee to provide that the presence of alcohol or a controlled substance was not the proximate cause of the work-related injury. An employee who tests positive or refuses to submit to chemical testing may be disqualified for compensation and benefits under the Workers' Compensation Act

Payment of insurance premiums by the Agency shall end thirty (30) days after the employee separates from the Agency. Employees may be required to pay a portion of their insurance cost. The PCRC agency only pays for full-time employees health care costs. Effective December 20, 2012, the PCRC Board approved that from this date on, the agency will pay the cost of only a single full-time employee healthcare covered by his/her spouse as long as it doesn't exceed what the cost would have been if the employee stayed under the agency employee benefits.

An employee may request other payroll deductions on a voluntary basis. The Program Director may approve deductions, provided the employee assumes full cost.

5-7 Wage Advance

This policy allows employees to cash out up to 80 hours of accrued vacation time, provided they have it, and if not, allows the employee to cash in what vacation time they have accrued, but not to exceed 80 hours.

Notice of promotion will be provided to the employee in writing along with changes in wage, position or benefits as applicable.

6. We respect the rights and views of other alcohol/drug abuse workers and other professionals.
7. We respect institutional policies and cooperate with management function. We take initiative toward improving institutional policies and management functions.

8. We have a commitment to assess our personal and vocational strengths and limitations, biases, and effectiveness. We maintain the willingness and ability to recognize when it is in the client's best interest to refer or release him/her to another individual or program

9-2 Outside Practices or Employment

No full-time employee shall arrange for, accept or continue outside employment or practice without receiving written approval from the Program Director. The employee is responsible for requesting this approval from his/her immediate supervisor who will then request formal approval from the Program Director.

If a full- or part-time professional employee is given permission for outside private practices, it is to be definitely understood that no employee shall refer any clients from Pike County Recovery Council, Inc. services to himself or to any other employee, thereby receiving monetary gain.

9-3 Personal Relationships

It is recognized that Agency staff members are in a unique position regarding personal relationships with current Agency clients. It is expected that staff members and clients will participate together in the fellowship within the recovering community. It is felt that within this joint participation, fellowship and friendship is healthy and necessary. However, it is inconsistent with principles of ethics for Agency staff members to be linked to Agency clients in relationships that extend beyond fellowship and friendship, specifically romantic or sexual relationships. To develop such a relationship is considered an incompatible activity warranting immediate termination. It is also recognized that similar relationships between staff members can serve as a distraction, and can create inter-Agency conflict. For this reason, such relationships are discouraged.

Any non-professional relationship with any client of the Pike County Recovery Council, Inc. other than existing family members as defined by O.R.C. § 2919.25, by any employee of the Agency shall result in immediate termination of employment.

All Agency employees should adhere to agency policy regarding client contact outside of the agency. The only exclusions to this category are employees who work through the DIP Program ONLY or contract personnel hired to perform a time-limited service such as painting, roof repair, plumbing, etc. Agency employees refers to all part-time, clinical, support administrative, treatment, prevention, or contract employees. Clients refers to all clients (adult or juvenile) who have an active admission status on a Client or who have an active admission status within two (2) years.

There will be no sponsorship of clients by agency employees.

Contact outside of the agency between employees and clients will be kept to a minimum. Contact should not be initiated by the employee. Contact should take place in a public space. Examples of public spaces include: 12-Step meetings, community events, grocery stores, post offices, places of business, churches, schools, social gatherings, etc. Personal (or non-public) spaces would include the living space of the client or counselor.

Clinical staff shall refrain from exploitative relationships involving clients, past or present dictated by the OCB Code of Ethics. All employees of the agency should also refrain from this type of a relationship with clients. An exploitative relationship is a relationship that benefits the counselor or employee. This would include the employee receiving:

- A) A special deal from the client's place of business (free food)
- B) A better deal on a purchase than the general public
- C) A better deal on a client's customary employment services (i.e. painting, roofing, yard work)
- D) Services that were not the client's customary source of employment (having a client wash the car, house-sit, baby-sit, paint, etc., when that is not what the client does for employment) OR
- E) Any arrangement where the employee receives money from the client

Exploitative relationships would also include an arrangement that fosters financial or economic dependency of the client on the employee. This would include having the client perform tasks that are not the client's customary source of employment to receive money, use of a vehicle, phone card, purchase of gas, food, place to live, etc.

In case of juvenile prevention participants, there should be no non program contact between the juvenile and employee. There should be no one-to-one mentoring activities - one juvenile should not receive special or preferential treatment from an agency service provider. Contact should take place in public spaces as much as possible. In the event of a planned program scheduled at the home of an employee, the program should be open to the group. If an employee wishes to participate in mentoring activities, he/she should seek a mentee not associated with the agency. (Big Brothers/Big Sisters, etc.)

EXCEPTIONS:

- A) Pre-existing relationships: In the event that there is a pre existing relationship between employee and client or employee and juvenile, the employee shall inform the Program Director and discuss appropriate action.

- B) Business arrangements: An employee may enter into a business arrangement with a former client-after one year discharge from active status.
- C) Agency Employment: The Agency may hire former clients into employment after six (6) months discharge from active status.

This policy does not replace any ethical responsibility for staff members. Credentialed and licensed staff are still bound by their respective Code of Ethics. This policy is not inclusive to every possible situation which could arise in a small community. Therefore, the Program Director is allowed the opportunity to judge other circumstances and decide upon appropriate action. Some infractions are more serious than others. Consequently, the action of immediate dismissal is reserved for the judgment of the Program Director.

9-4 Staff Member Neglect and Abuse of Persons Served

The Agency will not tolerate any abuse or neglect by any staff member of persons served by this Agency including prospective clients, family/significant others. All individuals will be treated in a non-threatening and non-judgmental manner. Any form of physical abuse including striking or verbal abuse is inappropriate and will be considered a deviation from the professional code of ethics, which govern all Agency staff members.

Client neglect is considered any act of omission from standard treatment needs.

Any acts and/or allegations of neglect or abuse will be reported to the Program Director who will investigate to determine if the individual's civil rights have been violated, or whether a crime may have been perpetrated upon the individual. If there is reason to believe that culpability exists, then a report to law enforcement and/or the appropriate state regulatory Agency(ies) will be made. The Program Director will also ensure that proper disciplinary action is facilitated. Written documentation of the incident and any actions taken will be maintained.

9-5 Sexual Harassment (ORC 4112; Civil Rights Act of 1991)

Sexual harassment of any kind will not be tolerated by the PCRC. Sexual harassment is illegal under State and Federal law. The Employer is committed to providing a workplace free from unlawful conduct. Sexual harassment is defined as a continuing pattern of unwelcome sexual advances, requests for sexual favors, or physical contact of a sexual nature by supervisors, fellow employees, or the general public under any of the following conditions:

1. when submission to the conduct involves a condition of the individual's employment, stated or implied;

2. the individual's submission or refusal is used, or might be used, as the basis for an employment decision which affects the individual; and/or
3. the conduct unreasonably interferes with the individual's job performance or creates a work environment that is intimidating, hostile or offensive.

Sexual harassment does not refer to generally acceptable, pleasant, friendly or even mildly flirtatious interactions, as long as no reasonable person is offended.

However, even a one-time incident, if sufficiently serious, may rise to the level of sexual harassment.

Sexually harassing behavior, whether committed by supervisors or non-supervisory personnel, is prohibited. Any harassment, whether verbal, written, physical, electronic or environmental, is unacceptable and will not be tolerated, whether it occurs in the workplace or at outside work-sponsored activities. This behavior includes, but is not limited to:

1. Repeated unwelcome or offensive sexual flirtations, advances or propositions.
2. Verbal abuse of a sexual nature.
3. Graphic or degrading verbal comments about an individual or his/her appearance.
4. The display or distribution of sexually suggestive objects or pictures.
5. Unwelcome or offensive verbal or written communication of sexually suggestive material including "jokes."
6. Any unwelcome or offensive physical contact.

Reporting.

Any employee who feels that they have been sexually harassed should report the complaint to their immediate supervisor, Program Director. In addition, if any employee feels that they have been harassed by a member of the public, a service provider, client or any other third party, during the course of their employment, the employee should report the complaint to their immediate supervisor, or the Program Director. There will be no reprisals against any employee for making a report as provided in this section.

Investigation.

The PCRC will conduct a prompt and thorough investigation of all complaints of sexual harassment. The PCRC will make every effort to keep the complaint confidential, except as required by law and as may be reasonably necessary to successfully complete the investigation. It will be a violation of this policy for any person who learns of the

investigation or complaint to take any retaliatory action that affects the work environment of the complainant or any person involved in the investigation. Failure by any employee to cooperate with the investigation of a complaint will be a violation of this policy.

Disciplinary Action.

If the allegation of sexual harassment is found to be credible, appropriate disciplinary action will be taken. Sexual harassment on the part of a Pike County Recovery Council, Inc. employee will be treated as a disciplinary infraction, with penalties up to and including termination for a first offense, in accordance with the PCRC's discipline policy.

Responsibilities.

Every supervisor is responsible for promptly responding to or reporting any complaint or suspected act of sexual harassment. Supervisors should report to their immediate supervisor, Program Director, or the Director. Failure of a supervisor to report or adequately address such harassment will result in disciplinary action in accordance with the PCRC's discipline policy.

It is the responsibility of every employee, should they observe or experience objectionable or unwelcome behavior of the type described in this policy, to report that behavior as provided in this policy. There will be no reprisals against any employee for making such a report.

The Human Resource Director is responsible for handling all complaints of sexual harassment and for ensuring that all are investigated full and fairly, regardless of the manner in which they are made or the individual involved. Should the Personnel Office be the subject of a complaint of sexual harassment, then the complaint should be made to the Program Director, who shall investigate the complaint.

The Program Director will review every case and ensure that the complaint has been fully and impartially investigated. If the evidence shows a pattern of harassment as described above, the Program Director shall take appropriate disciplinary action against the offending employee, up to and including discharge from employment.

Any employee making a complaint shall be fully advised of his/her rights and responsibilities under state and federal regulations. No employee shall be made the focus of retaliation or reprisals for filing a sexual harassment charge, either by fellow employees, supervisors, or the public.

After exhausting local remedies, an employee who wishes to pursue a complaint under paragraph D above, should contact the Ohio Civil Rights Commission, 220 Parsons Avenue, Columbus, Ohio 43266-0543, telephone number 1-614-466-2785.

9-6 Nepotism

The Pike County Recovery Council, Inc. attempts to control the placement and the employment of relatives and members of the same household within the program in order to prevent:

1. situations that might result in unfair preferential treatment of other employees, or residents;
2. professional decision that might be disadvantageous for the Agency; and
3. an employee being in a position to supervise or control a member of his/her family.

Changes in the existing status of positions of permanent employees shall not be required if such relationships existed at the time of the adoption of this policy. Every effort will be made to avoid having family members or relatives supervise other family members or relatives.

Present employees who marry or who live in the same household may be transferred to avoid the situations as listed above.

“Significant relationship” means persons living together as a spousal or family unit when not legally married or related where the nature of the relationship may impair the objectivity or independence of judgment of one individual working with the other.

No employee serving as a director, associate director, or any person of equivalent rank shall have in the employ of his/her any person closely related by blood, marriage or other significant relationship including business association, unless authorized by the Agency.

No employee shall use his/her position of authority or influence to secure the authorization of employment or benefit, including a promotion or preferential treatment, for a person closely related by, blood marriage or significant relationship including business association. This includes, but is not limited to the hiring, supervision, promotion, disciplinary action, etc.

The Agency may employ relatives of employees in summer, casual and intermittent positions.

9-7 Solicitations

Solicitations left unrestricted would interfere with the orderly and normal operations of the Agency, be detrimental to discipline and productivity, and pose a threat to client confidentiality. The Agency may permit charities to solicit contributions on the premises for specific periods of time. Approval must be received from the Program Director. All other solicitations of funds or signatures, membership drives, distribution of literature or

gifts, and offers for sale of merchandise or tickets by individuals or groups not associated with the Agency are prohibited.

9-8 Gifts and Gratuities

Employees are prohibited from personally accepting gifts, money, or other gratuities from persons receiving services from the agency except as a donation to the agency. The employees may not receive gifts from clientele which are a monetary benefit to them personally.

9-9 Workplace Violence

A. Policy Statement.

All forms of workplace violence including, but not limited to, harassment, intimidation, threats and assaults will not be tolerated by the Pike County Recovery Council. Workplace Violence is defined as physical or verbal assaults upon a co-worker, supervisor, or member of the public. In addition, horseplay will also not be tolerated.

B. Workplace Violence.

1. The Agency is responsible for handling all complaints of workplace violence and or ensuring that all complaints are fully and fairly investigated, regardless of the manner in which they are made or the individual involved.
2. The Agency will review every case and ensure that each complaint has been fully and impartially investigated. The Agency shall take appropriate disciplinary action against the offending employee, up to and including discharge.
3. Employees are strongly encouraged to report all forms of workplace violence, physical and verbal. No employee shall be the focus of retaliation or reprisal for filing a workplace violence complaint.
4. In further support of this serious workplace issue and in providing a safe workplace, employees are prohibited from possessing or using any weapons on Agency property. Violation of this policy will result in immediate discipline.
5. Employees who need help or who have been victims of workplace violence are encouraged to seek assistance through outside counseling or services. The Agency will make every effort to ensure reasonable accommodations are provided.

C. Workplace Emergencies Program.

An Emergency Action Plan will be developed under the guidelines of OSHA regulations 29 CFR 1910.38 [ORC 4167.07 (A) (1) (a)].

1. The Emergency Action Plan will include emergency escape procedure and emergency route assignments in case of workplace assaults. This plan will include rescue and medical duties for identified personnel. This plan will also include an alert system for violent assaults which is identifiable and distinctive from other alarms.
2. An Emergency Response Team will be formed as a first line of defense in assault emergencies. Team members will be physically capable of performing the duties assigned. The Team will be trained in all aspects of the emergency response including evacuation procedures, and procedures for contacting outside emergency agencies.
3. Employees will be trained and become knowledgeable in protective measures in case of violent behavior, such as:

What triggers violent behavior?
What are the warning signs?
How should I react in violent situations?
How do I protect myself?
Evacuation procedure.

4. The Agency will attempt to prevent violent activities by:

Using a strong pre-employment process.
Training and educating employees.
Providing sound security measures such as improved external lighting, security cameras and/or alarms.
Documenting employee behavior.
Controlling access and entry to the workplace.
Requiring visitors to sign in, wear identification and obtain permission to visit employees.

D. When An Emergency Situation Exists.

1. Each supervisor or administrator responsible for determining that an emergency situation exists.
2. An emergency is defined as an accident or injury that, at the judgment of the supervisor or administrator, requires immediate first aid or professional help. Psychiatric and psychological crisis intervention is considered an emergency if the employee might harm himself or another employee or member of the public.
3. Once the determination has been made regarding the emergency, the appropriate agencies are to be telephoned (i.e., emergency squad,

community mental health, parents, spouse or guardian).

4. An incident report will be written within twenty-four (24) hours of the emergency.
5. All incident reports will be filed with the Agency who will confer with the Sheriff and Prosecuting Attorney as necessary. These reports are to be made available for any investigation under ORC 4167.10.

SECTION 10 DRUG-FREE WORKPLACE

10-1 Statement of Policy

The Agency believes that it is very important to provide a safe workplace for its entire staff. The Agency is taking steps to address the problem of substance use that negatively affects every workplace, including ours. Our Agency is concerned with the health and well being of all staff members. Behaviors related to substance use can endanger all staff members, not just substance users. We cannot condone and will not tolerate behaviors on the part of staff members that relate to substance use, such as:

1. Use of illegal drugs
2. Misuse of alcohol
3. Sale, purchase, transfer, trafficking, use or possession of any illegal drugs
4. Arrival or return to work under the influence of any drug (legal or illegal) or alcohol to the extent that job performance is affected.

Management is fully committed to our Drug-Free Workplace Policy, which establishes clear guidelines for acceptable and unacceptable staff member behavior for everyone in the workplace. We will not tolerate substance use in violation of this Policy and intend to hold everyone reasonably responsible for supporting the Policy.

This Policy describes our Agency's Drug-Free Workplace Program and every staff member is expected to read and understand it. The Policy applies to all staff members, including management, and applies to contractors and subcontractors we may use. The consequences stated in this Drug-Free Policy will apply to anyone who violates the Policy.

The Agency holds all staff members accountable in terms of substance use, but, also, supports getting help for any staff member. Staff members who come forward voluntarily to identify that they have a substance problem will receive Agency support and assistance. However, if a staff member has a substance problem and does not come forward, and he/she then tests positive for drug or alcohol use in violation of this Policy, the Agency reserves the right to terminate employment for violation of this work rule. Staff members whose jobs are subject to any special law or regulation may face additional requirements in terms of substance use. Other consequences that apply to all staff members that violate this Policy are spelled out within this document.

Our Policy covers five key parts of the Agency's program. The five parts are:

1. A written policy that clearly spells out the program rules and how everyone benefits.
2. Annual substance awareness education for all staff members.
3. Training for supervisors regarding their responsibilities.
4. Drug and alcohol testing, the most effective way to change harmful behaviors related to substance use.
5. Staff member assistance.

Staff members will have the opportunity to receive information about how substance use is a problem affecting the workplace. Staff members will learn the signs and symptoms, dangers of use, and how and where to get help for themselves and their families.

10-2 Protection for Staff Members

This program is designed to protect staff members from the behaviors of substance users. Some of the protections built into the program are:

1. The Agency will carry out this program with maximum concern for confidentiality and commitment to the privacy rights of individuals. Staff member records (such as a referral or results of a drug test or assessment) are considered confidential and information is shared only on a need-to-know basis for the purpose of carrying out this program and/or complying with legal or regulatory requirements. Any violation of confidentiality rights is subject to disciplinary action up to and including termination of employment.
2. We are committed to staff members that have a substance problem getting help. Each situation will be reviewed individually. Staff member assistance is available for staff members and their families. A list of resources is available through the office of the Program Director. We want staff members to come forward who have a substance problem and not wait. Staff members who test positive risk losing their job.
3. All supervisors will be trained in their duties related to testing.
4. All staff members will receive awareness education every year to help identify problems and learn where staff members can go for help.
5. Collection of urine specimens and breath testing will be done at a local clinic and urine drug test specimens will be analyzed by a laboratory certified by the federal government. These labs use the highest level of care in ensuring that results are accurate and the process that is used is 100% accurate in detecting the substances the Agency is concerned about are present in the staff member in sufficient quantity to lead to behaviors that may hurt the person or other staff members.
6. All screening and the results of any screen will be treated in a confidential manner compatible with the donor's dignity. All employees who are tested will be given the results of their tests in writing.
7. The testing program consists of an initial screening test and a possible second test. If the initial results are positive, then a second test is administered. Cut-off levels for each drug and for alcohol are established for what will be considered a positive test. These levels show that the staff member did not just have a little of the substance in his or her system, but enough to affect workplace safety and

the ability to do the job. These cut-off levels come from federal guidelines and are fair for all staff members.

10-3 Staff Member Awareness Education:

Every staff member will attend a session in which this Policy is discussed. You will have a chance to ask questions. We will give everyone a copy of our written Policy and everyone will be expected to sign that they received it. Later, we will have a qualified person explain why and how substance use is a workplace problem, the effects, signs/symptoms of use, effects of commonly used drugs in the workplace, and how to get help. There will be a minimum of two hours of substance education annually for all staff members. New staff members will hear about the program during orientation and will receive substance education as soon as possible thereafter.

10-4 Supervisor Training:

Supervisors will be trained to recognize substance problems that may endanger the staff member and others, as well as violations of this Policy. This training is in addition to the two hours of substance education session. Supervisors will be trained about testing responsibilities, how to recognize behaviors that demonstrate an alcohol/drug problem and how to make referrals for help.

10-5 Drug and Alcohol Testing:

Testing will be used to detect problems, get staff members not to use substances in a way that they violate our Policy and then allow us to take appropriate action to correct the situation. In addition to alcohol, the drugs that we are testing for include:

1. Amphetamines (speed, uppers)
2. Cocaine (including crack cocaine)
3. Marijuana
4. Opiates (codeine, heroin, morphine)
5. Phencyclidine (PCP, "angel dust")
6. Barbiturates (depressants)
7. Propoxyphene (Darvon)
8. Methadone
9. Benzodiazepines (Valium, Xanax, Librium, etc.)

10-6 Staff Member Assistance:

We are supportive of staff members taking action on their own behalf to address a substance problem. Staff members referred to appropriate services outside of the Agency will be sent for services that are consistent with the Agency's philosophy and mission in the treatment of addiction. We have a list of appropriate resources to give to staff members that come forward voluntarily to seek help. This is a list of places to go for an assessment and treatment. When a staff member has a substance problem, we will meet with the staff member to discuss the problem and any violation of this Policy. The Agency reserves the right to terminate based on a positive test. Staff

members will be tested for the presence of drugs in the urine and/or alcohol on the breath under any and/or all of the conditions outlined as follows:

10-7 Post-Offer, Pre-Employment Drug Testing

As part of the Agency's employment procedures, all applicants will be required to undergo a post-offer, pre-employment drug screen/test that is conducted by a contractor designated by the Agency. Any offer of employment is dependent upon satisfactory completion of this screening.

10-8 Reasonable Suspicion Testing

Reasonable suspicion testing will occur when management has reason to suspect that a staff member may be in violation of this Policy. The suspicion will be documented in writing prior to the release of the test findings. A reasonable suspicion test may occur based on:

1. Observed behavior, such as direct observation of drug/alcohol use or possession and /or physical symptoms of drug and/or alcohol use.
2. A pattern of abnormal conduct or erratic behavior.
3. Arrest or conviction for a drug-related offense, or identification of a staff member as the focus of a criminal investigation into illegal drug possession, use, or trafficking. The staff member is responsible for notification of the Agency, within five (5) working days of any drug-related conviction.
4. Information provided either by reliable and credible sources or independently corroborated regarding a staff member's substance use.
5. Newly discovered evidence that the staff member has tampered with a previous drug or alcohol test.
6. Employees will be transported by a member of management or their direct supervisor to be tested when a reasonable suspicion exists on the employees impairment.

Reasonable suspicion testing does not require certainty, but mere "hunches" are not sufficient to justify testing. To prevent this, all managers/supervisors will be trained to recognize drug and alcohol-related signs and symptoms. Testing may be for drugs or alcohol or both.

10-9 Post-Accident Testing

Post-accident testing will be conducted whenever an accident occurs, regardless of whether there is an injury. We consider an accident an unplanned, unexpected, or unintended event that occurs on our property, during the conduct of our business, or during working hours, or which involves one of our motor vehicles, or motor vehicles that are used in conducting Agency business, or is within the scope of employment, and which results in any of the following:

1. A fatality of anyone involved in the accident
2. Bodily injury to the staff member and/or another person that requires off-site medical attention away from the Agency's place of employment
3. Vehicular damage in apparent excess of \$500 (five hundred dollars)
4. Non-vehicular damage in apparent excess of \$500 (five hundred dollars)

When such an accident results in one of the situations above, any staff member that may have contributed to the accident will be tested for drugs, or alcohol use, or both. Supervisors or a member of management will transport the injured employee(s) to the hospital for a drug and alcohol test.

10-10 Drug and/or Alcohol Testing After an Accident

Urine specimen collection (for drugs) and/or breath/saliva (for alcohol) are to occur as quickly as possible after a need to test has been determined. Employees who suffer an on-the-job injury will be transported, by a supervisor or designee, to a medical facility for treatment and drug tests. At no time will a urine specimen be collected after 32 hours from the time of an employment-related incident. Breath or saliva alcohol testing will be performed as quickly as possible, but no later than eight hours after the incident, or it will be documented as not performed. If the staff member responsible for an employment-related accident is injured, it is a condition of employment that he/she grants the Agency the right to request that attending medical personnel obtain appropriate specimens (breath, urine, and /or blood) for the purpose of conducting alcohol and /or drug testing. Further, all staff members grant the Agency access to any and all other medical information that may be relevant in conducting a complete and thorough investigation of the work-related accident including a full medical report from the examining physicians(s) or other health care providers. A signed consent to testing form is considered a condition of employment. Management reserves the right to determine who may have caused or contributed to a work related accident and may choose not to test after minor accidents, if there is no violation of a safety or work rule, minor damage and/or injuries, and no reasonable suspicion.

10-11 Follow-up Testing After Return-to-Duty from Assessment or Treatment

This test occurs when a staff member who has previously tested positive and the decision was made to not terminate him/her. A negative return-to-duty test is required before the staff member will be allowed to return to work. If he/she fails this test, this will lead to termination of employment. Once a staff member passes the drug and/or alcohol test and returns to work, management may choose to do additional unannounced tests for as long as deemed necessary.

Any staff member with a second positive test result will be terminated. Follow-up tests will be unannounced and may occur at any time for a period that management considers reasonable. The intent is to deter any subsequent usage that would result in a violation of this Policy.

10-12 Positive Test Results

A staff member who is found to have a confirmed positive drug or alcohol test will be immediately taken off safety-sensitive duties and is subject to discipline up to and including termination.

10-13 Termination Notices

In those cases where substance testing results in the termination of employment, all termination notices will list "misconduct" as the reason. Termination shall be deemed "for cause."

SECTION 11 STAFF DEVELOPMENT

11-1 Staff Development Plan:

The Program Director in consultation with the Board shall develop an annual plan or guidelines for staff development activities. These may include the following:

1. Paid time to attend local regional or state conferences, workshops or other training programs.
2. In-service training during agency time.
3. Staff meetings including Peer Review and Quality Assurance sessions.
4. Attendance at self-help or personal development groups during agency time.

9. Employee compensation for travel lodging, etc.

11-2 Availability of Activities

Employees will be informed of staff development activities available to them. Such activities are considered a fringe benefit and are limited by the availability of funds. The Program Director shall make determinations and grant the use of Staff Development activities within the budget limits. The Board, through approval of budgets and plans, shall establish the staff development benefits plan to be available in any particular fiscal year.

SECTION 12 EMPLOYEE COMPENSATION

12-1 Employee Expense Benefits:

The Agency shall provide for the reimbursement of all staff personnel for personal expenses incurred in the performance of their assigned duties and responsibilities.

Employees may be reimbursed for the following expenses:

1. Personal automobile mileage
2. Public transportation fees/fares not to exceed \$100.00 per diem
3. Room and board
4. Conference fees
5. Training materials
6. Parking
7. Other items subject to individual approval
 - a. Reimbursement shall be based upon travel expense report and by proper documentation or personal expenditure within approved limitations. Proper Receipts are required for all expenses.

Staff travel outside the geographic service area is the decision of the Board and shall be final. The Program Director shall see that the decision of the Board is carried out.
 - b. Staff travel outside the geographic service area of the county shall require approval of the Program Director. The Program Director's travel outside the geographic boundary of Ohio shall require approval of the Board. Failure to obtain said approval may result in loss of reimbursement for any employee.
 - c. The rate of reimbursement for personal automobile travel shall be in an amount paid per mile, and rates shall be established from time to time by action of the Board. All other transportation costs shall be reimbursed according to actual expenditures. Employees are required to have a valid license on file with Agency and proof of insurability for vehicle insurance.
 - d. Reimbursement expenses incurred while on educational leave shall be subject to any limitations noted in approved Educational Leave request.
 - e. The Board reserves the right to restrict the amounts of reimbursement allowed in order to remain within the budget amounts allowed for such expenditures.

- f. The Program Director may provide for issuing cash advance payment to an employee when there is an anticipated expense, so that the employee will not have to pay for the expense personally. In such a case, the employee shall provide receipts for the use of the cash advance. If there is a difference between the cash advance and the actual expense, the employee will be compensated for the difference or will remit the difference to the Agency.

12-2 Other Employee Compensation:

On occasion, employees may pay "out of pocket" for purchase of authorized items or for miscellaneous expenses. For such cases, the employee will be reimbursed upon furnishing a receipt or proof of purchase. The reimbursement shall be authorized by the Program Director.

SECTION 13 DISCIPLINARY ACTION

13-1 Employee Discipline:

When an individual accepts a position with the Agency, he/she also accepts the responsibility of adhering to certain rules, regulations and standards which are essential to the efficient, successful and professional operation of the office. Every effort must be taken to ensure all employees are aware of these rules. These rules are designed not to infringe upon any employee's rights, but rather to create an atmosphere in which all employees may work together to the maximum benefit of both the employee and the Agency.

It is the policy of the Agency to be fair and uniform in its handling of personnel. It is anticipated that most problems can be resolved between the immediate supervisor and the employee through verbal and written reprimands. It is the responsibility of the immediate supervisor as the first line of authority to begin disciplinary process as soon as the violation occurs. But it must be made clear that the dismissal of an employee, his suspension from a job for a limited period of time, or his reduction to a lower classification or salary are serious disciplinary measures which are taken only when normal corrective action by the supervisor has failed to produce desired results. Nevertheless, there should be no hesitancy in using these measures when circumstances warrant.

An employee whose conduct or performance falls below an acceptable standard shall be subject to disciplinary action. The Program Director is authorized to take appropriate disciplinary action when an employee's work or conduct warrants such action. Actions can include but are not limited to, verbal or written reprimands, special probation, suspension without pay, demotion and termination.

Such actions and the stated reasons shall be given to the employee in writing. Documentation of previous reprimands is not necessarily required as steps leading to more severe action. The disciplinary action shall be appropriate to the offense and certain misconduct shall warrant more immediate and severe disciplinary measures than others.

13-2 Personnel Actions

Personnel actions involving any staff member, with the exception of the Program Director, will be subject to the final approval of the Program Director. Discipline shall take into account the nature of the violation/misconduct, the staff member's record of discipline and his/her record of conduct. Generally reprimand or disciplinary action will be in the following form and following order:

1. Coaching/Counseling
2. Oral reprimand or verbal reprimand
3. Written reprimand
4. Suspension and/or demotion

5. Discharge/Termination

Disciplinary actions are not necessarily progressive, but are options to be considered based upon the severity of the violations or misconduct. Documentation of disciplinary actions will be forwarded to Human Resources and maintained in the staff member's personnel file.

13-3 Client Confidentiality and Privacy

Because of the Agency's commitment to insuring a system of client confidentiality and privacy regarding health care information, staff members are expected to adhere to all rules and regulations regarding confidentiality and the Health Information Portability and Accountability Act (HIPAA) Policy and Procedure Manual. In the event that a staff member violates these policies or rules, disciplinary action will be necessary. Such action will occur as follows:

Discovery: Whenever a breach of confidentiality or a violation of HIPAA standards is discovered or reported, the breach or rule violation will be reported to the staff member's supervisor. The supervisor will review the incident and develop a written or oral report for the Program Director. The Program Director will operate in conjunction with the staff member's supervisor to initiate disciplinary action if the violation is verified. Action will be based upon: severity of the violation; past history of other disciplinary actions regarding the staff member; and potential for future violations, conflicts of interest, and corrective action.

13-4 Counselor Code of Ethics

All Agency staff members are expected to conform their behavior to the Code of Ethics (a copy of which is attached to these policies) as set forth by the Agency, the Ohio Credentialing Board for Chemical Dependent Counselors, and/or the Ohio Counselor and Social Work Board according to the staff member's certification or license or the certification or license that is being pursued. Any known or reported violation to these standards is subject to disciplinary action as outlined in Section 10-1.

13-5 Suspension

Some offenses may require an investigation to be conducted to establish the facts, while some offense by their nature do not require an investigation.

An employee may be suspended by the Program Director or designee, without pay, for misconduct. The employee will be notified both verbally and in writing as to his/her disciplinary action and will be given an opportunity to address the charges by submitting a written response. For the initial suspension, the employee's misconduct will be for a period not to exceed three (3) working days. During suspension, the employee's misconduct will be evaluated as to the potential for termination. This evaluation by the Program Director will lead to one or more of the following:

1. Reinstatement to previous duties;
2. Further period of suspension and/or demotion;
3. Extending or reinstating the probationary period, with extension or new period not to exceed six (6) months; and/ or
4. Termination .

The orderly and efficient operation of the Agency requires reasonable standards of discipline and conduct. In order to minimize the likelihood of any employees becoming subject to disciplinary action, the following represents the work rules which govern employee conduct.

These work rules do not and could not cover every act or omission which might be considered wrongful. If wrongful acts or omissions occur which are not specifically on this list of work rules, reasonable disciplinary action will be taken.

For the guidance of employees, the usual penalty which will result from violation of the work rules is listed. These penalties are not exclusive, and may be modified or changed in cases involving either aggravated or mitigating circumstances. Repeated, deliberate and/or flagrant violations will subject the offender to disciplinary suspension and discharge from employment.

The examples of Group I, II and III offenses, set forth below, are characteristic of those offenses which the reasonable individuals have historically judged to be of such a nature so to warrant those penalties established for the group. In general, Group I Offenses may be defined as those infractions which are of a relatively minor nature and which cause only a minimal disruption to the organization in terms of a slightly, yet significant, decrease in organization productivity, efficiency and/or morale. Group I Offenses, if left undisciplined by proper authority, will usually cause only a temporary and minor impact against the organization unless such acts are compounded over time.

Group II Offenses may be defined as those infractions which are of a more serious nature than Group I Offenses and which, in turn, cause a more serious and longer lasting disruption to the organization in terms of decreased organizational productivity, efficiency and/or morale. Group II Offenses, if left undisciplined by proper authority, can cause a serious and longer lasting adverse impact against the organization than the Group I Offenses.

Group III Offenses can be defined as those infractions which are of a very serious or possibly criminal nature, and which cause a critical disruption to the organization in terms of decreased productivity, efficiency and/or morale. Group III Offenses, if left undisciplined by proper authority, may cause long lasting and critically serious adverse impact against the organization.
